- 2) It is compulsory to attempt all the questions from all the sections.
- 3) Read all the answers before submission to invigilator.
- 4) The questions is divided into four sections A, B, C & D.

SECTION-A

Unseen passage:-Read the passage carefully.

Flowers are beautiful and colourful plants that grow all around us. They come in different shapes, sizes, and colours and can be found in gardens, parks and even in the wild. Flowers have many important jobs in nature. One of their most important jobs is to attract pollinators such as bees, butterflies, and hummingbirds. These pollinators help flowers reproduce by carrying pollen from one flower to another. Flowers also have different meanings and are often used to express emotions. For example, red roses are the symbol of love and affection, while yellow flowers represent happiness and joy. If you want to enjoy flowers at home, you can grow them in a garden or in a pot. Some easy to grow flowers for beginners are marigolds, petunias, and sunflowers. Flowers need sunlight, water, and soil to grow and thrive.

Q1. Choose the correct answer with reference to the passage:
